

Bot Soccer Challenge at Makers Fete 2023

A Duel of Robotic Soccer Skills!

Get ready to put your custom-built bots against each other in a thrilling soccer match!

Two Bots from different teams will compete to score goals while preventing the opponent from scoring.

Game Play:

- 1 on 1 game format.
- Robots start in different halves, ball at the center.
- Score goals by pushing the ball into the opponent's goal post.
- The team with the most points wins.
- Ball out of bounds? It's placed back in the center to resume play.
